TAL CRAWFORD FOR CO. JUDGE

PROMINENT YOUNG ATTORNEY
ANNOUNCES FOR THE OFFICE
OF COUNTY JUDGE OF PON-
TOTOE COUNTY

In tomorrow's issue of the News will be found the announcement of Tal Crawford for the office of county judge of Pontotoc county. While this announcement is no surprise to the intimate friends of Mr. Crawford who have persistently insisted for some time that he make the race, it will come as interesting news to his friends throughout the county who were not aware of his ambitions.

Tal Crawford was born in Washington County, Arkansas, in 1889, and spent his young manhood days in that vicinity. He came to Oklahoma in 1909 and has been a resident of Pontotoc County continuously ever since that time. Mr. Crawford is a graduate of the law department of the state university at Norman and has practiced at the Ada bar since being discharged from the army at the close of the war.

Tal Crawford comes from a family that needs no introduction to the people of this part of the state, and no one who knows him can question for a moment, his qualifications for the office he seeks. A pleasing personality, a knowledge of the law and a disposition to do justice to all men are the chief qualifications that should be possessed by any man holding a judgeship, and all three are combined in the personality of Tal Crawford. He submits his candidacy to the people of Pontotoc county with no other aim than to make a clean cut race and, if elected, to serve the people in the capacity of county judge in a way that will reflect credit on both himself and the office.

At the present time no other candidate has appeared on the political horizon for the office of county judge, and whether there are others or not it is safe to say without fear of contradiction that none will appear whom the voters can support with better grace than Tal Crawford.

In Chapel Today.
In chapel today we had several new features. Mr. Anderson, the noted modern novelist, gave us a very interesting lecture. He gave us some very interesting facts about his latest book, "The Blue Moon." His story of why he wrote this book and the description of the scenes in old Indiana were most vivid and colorful. He then very wonderfully read parts of his book.

The Phi Beta Pledges caused much fun and laughter to the students by singing the "Old Family Chewing Gum." They were dressed very artistically with middie backs and a combination of one shoe and slipper. Miss Edna Driskell being unable to leave her dollie, rolled it on the stage with her, and Verla Clark carried a large lantern to keep her from losing her way. An alarm clock answered as well as a wrist watch for Mabel McKeel, who sang the leading part in the song.

BUYERS GOBBLE UP INDIAN FARM LAND

Over \$20,000 worth of Oklahoma's farm lands went at bargain rates at the regular sale of Indian land at the federal building in Muskogee Wednesday morning. Of the 49 tracts offered to the public, 39 were disposed of. Most of the tracts brought the top price of \$76 an acre.

A tract of 34 acres belonging to Jackson L. Falsom in Haskell county brought the top price of \$76 an acre. A Muskogee county tract offered for \$100 an acre failed to bring a bid. Other Muskogee county property went for \$36 and \$50 an acre.

Two ten-acre tracts in Cherokee brought the lowest price—only \$55 each. Most of the land sold for from \$3 to \$10 an acre. Most of the property is rocky and covered with timber, but a few tracts were tillable and had prospective value for oil and gas.

The Muskogee sale is the third of a series of nine being held at various cities in the eastern half of Oklahoma. Tracts in Pittsburg, Latimer, Atoka and Coal counties were offered for sale at McAlester yesterday. Other dates for this week include Holdenville and Ardmore.

Fleet Cooper has just returned from Oklahoma City where the Nash motor company are unloading a solid train load of automobiles and trucks. Mr. Cooper delivered a Nash sport to Mr. George Hicks and one to Mr. Yandell Lain.

ANOTHER EFFORT AT SETTLEMENT

PRESIDENT OF OUTLAW UNION
ADVISES MEN TO RETURN TO
WORK. FREIGHT TRAFFIC
80 PER CENT NORMAL

By the Associated Press
CHICAGO, April 23.—Striking switchmen and engine men met today at the call of insurgent union officials in another attempt to bring about a settlement of the unofficial walkout in the Chicago district.

Admitting defeat of the outlaw movement, John Grunau, president of the Chicago yardmen's association said he would advise the men to return to work. Grunau declared, however, that the fight for permanent maintenance of insurgent unions would be carried on.

With the return of additional strikers, railroad officials said that the freight movement in Chicago would go to eighty per cent normal. In the middle west and on the Pacific coast freight traffic was reported to have returned to normal.

ALL IS QUIET FOLLOWING RIOT

POLICE DISPERSE MOB OF 2000
BENT ON LYNCHING IN IN-
DIANAPOLIS. NEGRO CON-
FESSES TO CRIME

By the Associated Press
INDIANAPOLIS, Ind. April 23.—Indianapolis was quiet today following riotous scenes last night when the police dispersed a mob of more than 2,000 persons bent on the lynching of William Ray, negro, who is alleged to have confessed to the murder of Martha Huff, a young white girl. One person was injured in an exchange of shots in the vicinity of the Marion county Jail, where Ray is confined, and the police made 15 arrests.

Chief of police Kinney held the entire force of the city in readiness today in anticipation of possible further demonstrations. Leon Harris, colored, 19 years of age was shot in the neck and in the left leg while running from a crowd of men through the heart of the business district of the city. He was taken to the city hospital and his condition is not believed to be serious.

The mob was dispersed about midnight. Ray was arrested last Wednesday night and is said to have signed a written confession to the crime he committed Monday night. Thursday afternoon in a second statement he admitted, the police say, that he stabbed the girl when she screamed and fought him. He is alleged to have driven a pen knife into her throat, stripped her body of clothing, and to have thrown it into the swollen waters of Eagle Creek, west of the city. Ray entered a plea of guilty, and was arraigned in city court yesterday.

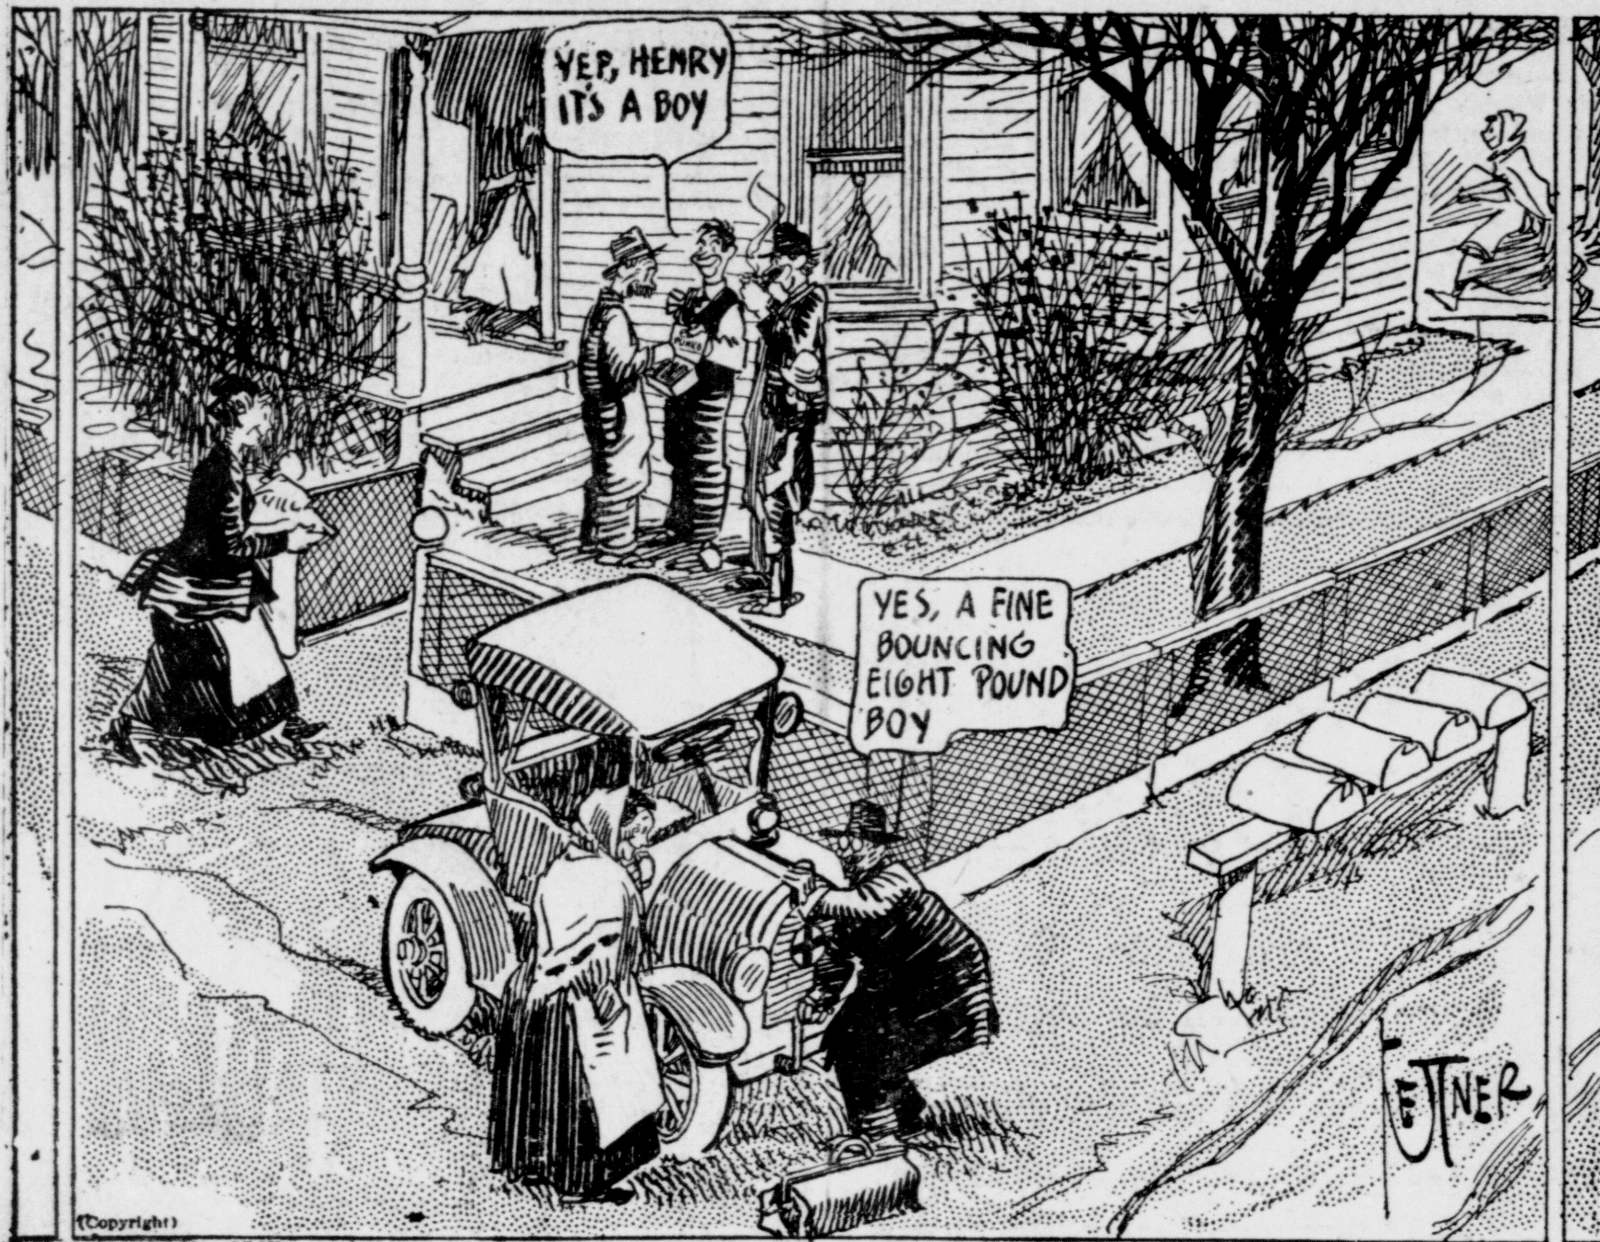

Public Speaking By Judge Bolen Tomorrow P. M.

According to announcement made early in the week Judge Bolen will speak on the streets in Ada tomorrow afternoon at 2:30 o'clock. He will discuss the question of State Rights in general and the Susan B. Anthony Amendment in particular. The meeting will be held in order to encourage the signing of petitions asking that the amendment be referred to a vote of the people.

While sentiment is very strong in favor of the first clause of the amendment giving women in all the states the right to vote there is considerable opposition to the second clause, which empowers congress to vitalize the amendment with appropriate legislation. It is the contention of many who have studied the amendment that under this clause congress is empowered to enact a federal election law which will place the management of elections under federal marshals and utterly destroy the right of states to manage their own elections. A large crowd is expected to hear the discussion of this matter tomorrow.

Pensions are Increased.
WASHINGTON, April 23.—The house bill increasing the pensions of civil war veterans to \$50 monthly and the pensions of widows of veterans to \$30 a month, was passed today by the senate, and now goes to conference. The increases were provided to meet the rising cost of living.

Another Presidential Possibility

START TO CLOSE UP INDIAN BOOKS

First steps toward closing up the affairs of the Creek and Seminole nations have been taken with the issuing of a notice by the Indian agency at Muskogee that all claims against the two nations must be in before June 30, 1920. Final closing up of the affairs of the two nations is expected to take place before the first of next year.

The closing of the tribal affairs was authorized in a bill passed by congress last June. Claims for Seminole per capita payments and Creek equalization payments must be given to Gabe Parker, superintendent of the Five Civilized Tribes, while other claims are to be made to Cato Sells, commissioner of Indian affairs, at Washington, D. C.

Affairs of the Cherokee nation were disposed of last summer and winter, the balance going to the Cherokee orphan school. It has not yet been determined what will be done with tribal funds remaining on hand after the Seminole and Creek claims have been satisfied.

Winding up the affairs of the Choctaw and Chickasaw nations awaits disposal of about \$14,000,000 worth of coal and asphalt deposits belonging to these nations. The third sale of these tracts will be held at McAlester June 16 and 17.

CAILLEUX GIVEN THREE YEARS

FORMER FRENCH PREMIER IS
CONVICTED OF HIGH TREAS-
ON; ONLY ONE MONTH
OF TERM REMAINS.

By the Associated Press
PARIS, April 23.—Sentence of three years imprisonment was imposed today upon former Premier Joseph Cailleux, convicted by the high court yesterday of high treason and intelligence with the enemy. The time during which he was under arrest will be deducted from his sentence, leaving him only one month to serve.

Profiteering Charged.
NEW YORK, April 23.—Indictments charging profiteering in meats, were returned today by a federal grand jury in Brooklyn, against the Chicago packing houses of Armour & Company, Wilson & Company and Swift & Company, and their representatives here.

Trip Through Glass Factory
Tomorrow morning the members of the "L. of J. will meet at the church at 9:00 and go to the glass factory. This is quite a privilege for the boys, and all should take advantage of it. We shall leave the church shortly after 9:00, so all should be at the church promptly at 9:00.

The side car taxi is a French motor novelty that should prove popular for quick transportation about crowded American city streets.

LAST MINUTE NEWS

Ask to Return to Work.

By the Associated Press
NEW YORK, April 23.—Railroad workers in the New York district appealed directly to the railroad managers today for restoration to duty and a settlement of the strike in the public interest.

Troops Patrol Streets

By the Associated Press
BUTTE, Mont., April 23.—Troops from Camp Lewis and Ft. George Wright, Washington, today began patrolling the streets of Butte, where there has been numerous disturbances, since a strike was called Monday by the metal workers union.

Mob Wants Negro's Life.

By the Associated Press
SAVANNAH, Ga., April 23.—A mob, estimated to be more than one thousand men, gathered here today at noon and threatened to force entrance to the county jail to inflict punishment upon four negroes, implicated in the murder of Henry Allen, a merchant, killed here Wednesday night.

St. Louis Strikers Stick.

By News' Special Service
ST. LOUIS, April 23.—Striking yardmen in the St. Louis district voted today to remain on strike and press their demand for increased wages. The vote was unanimous, it was said. Switchmen who are demanding an increase of \$4.72 to \$7.60, voted to increase the demand to \$9.00 if they were not met by Monday and an additional \$1.00 for each succeeding week the demand was ignored.

ADS ON BRIDGES N' FENCES N'
COWBARNES!"

WEATHER FORECAST.

Fair tonight. Not so cool in west portion. Sunday fair and warmer.

NARROW ESCAPE IN EXPLOSION OF GAS

R. O. Lawrence of 500 South Townsend, came near losing his life in a gas explosion at his home last night.

Mr. Lawrence, who works at the Dunlap store, went home about 6:30 o'clock. On his arrival home his wife, who was sitting on the porch, went into the dining room to prepare supper. About the same time Mr. Lawrence went into the living room to light the gas stove. He stood at the end of the stove and when he struck the match the explosion took place. Mr. Lawrence received burns on the hands and his eyebrows were singed. The pipe through which the fumes from the stove escape was blown from its bearings, both in the living room and in the dining room through which the pipe ran.

In speaking of the matter this morning Mr. Lawrence said that he had just had his house painted and that the doors were left open for the house to dry out. It seems that the gas stove had been lit in the living room in the evening and the strong draft had blown the gas out. The suction had filled the pipe above the stove with gas and this was what exploded when the match was struck. The furniture was not seriously damaged.

OFFICIALS ASK FOR WAR SHIPS

AMERICAN REPRESENTATIVES
IN MEXICO URGE THAT
SHIPS BE SENT TO PRO-
TECT THEIR LIVES.

By the Associated Press
WASHINGTON, April 23.—American government representatives in Mexico have requested the dispatch of war ships to that country to protect American citizens and their property. The request came from towns on the Pacific and Gulf coast. Officials of the state, war and navy departments are investigating the request, explaining that in times of disturbances in the southern republics, it is not unusual to receive requests for war ships when there is no actual need for them.

Unable to Reach Verdict.

By the Associated Press
NEW YORK, April 23.—The jury in the court of general sessions, which heard the case of Col. Augustus D. Porter, former third ward police commissioner, indicted in New York's vice war on a charge of neglect of duty, reported today that it had been unable to reach a verdict. It was discharged by Judge Malone.

Potatoes \$10.80 Bushel.

By the Associated Press
MCALESTER, Okla., April 23.—Potatoes soared to new heights here today. The first new potatoes appeared on the market here at \$10.80 a bushel.

REED REJECTED IN OLD MISSOURI

DEMOCRATIC STATE COMMITTEE
REFUSES PLACE AS DELE-
GATE TO NATIONAL CON-
VENTION TO SENATOR.

By the Associated Press
JOPLIN, Mo., April 23.—The democratic state convention in session here this morning voted to reject the selection of United States Senator James A. Reed as district delegate to the national convention and to return his name to the fifth district caucus which nominated him.

The vote was 1070 to 480, four not voting. The vote came as a climax to an all night session of the convention, in which wrangling and spirited debates played a prominent part.

The fifth district delegation, Kansas City and Jackson and St. Louis delegation with the exception of two wards, cast their ballots against the measure. The convention adjourned at 8:25 o'clock this morning.

REED DENOUNCED AT CONVENTION

"MISSOURI HAS SUFFERED LONG
BUT HER HOUR OF VINDICA-
TION HAS STRUCK," DE-
CLARES ONE SPEAKER.

By the Associated Press
JOPLIN, Mo., April 23.—Senator Reed was denounced and praised by a number of speakers in the debate which preceded the vote, at the Democratic state convention here today.

"Missouri has suffered long and has been patient, but her hour of vindication has struck," said Frank Curlee of St. Louis, in opening the debate for the opposition. He declared that Senator Reed's political offenses, and debated his opposition to the League of Nation covenants, and asserted that by his course in the senate during the war, he led the country to wonder whether Missouri was not more pro-German than American. The senator, he said, condoned the sinking of the Lusitania by German submarines and after the war broke out opposed measures to win it. "While I was in the United States army Senator Reed was in Washington opposing the food control act, upon which I depended for food."

"We ought to thank God we have a man in Washington who can think for himself and not go to the white house every day to find out how he stands," said Lee Meriwether of St. Louis, in making the principal address in defense of the senator. "There was no Reed in the Roman Senate to urge senators to think, and so Rome lost its liberties," Meriwether concluded.

FIRST STEP MADE TO CLOSE AFFAIRS OF THE INDIANS

By News' Special Service
MUSKOGEE, April 23.—All claims against the Creek and Seminole nations must be in by June 30. This announcement by the Indian agency is the first step toward closing up the affairs of the two tribes. All claims for per capita payments and equalization payments must be made through the Indian agency, while other claims must be presented at Washington, D. C.

Affairs of the Cherokee nation were closed up last November after all claims were put in last spring. The affairs of the Creek and Seminole nations will be completed before the first of next year, it is expected. The Cherokee funds remaining were given to the Cherokee orphan school, but it has not yet been decided what to do with the Seminole and Creek funds.

Strikers' Appeals Rejected.

By the Associated Press
NEW YORK, April 23.—New York railroad managers today flatly rejected an appeal from strikers in the New York district that they be returned to duty with all seniority rights and that the strike be "settled in the interest of the public." While 1,000 strikers were meeting in Jersey City, railroad officials said, the places of the outlaw strikers were being filled by the return of old employees and the employment of new men.

ADA MILLING CO. IS REORGANIZED

CONCERN INCORPORATED FOR
\$150,000; WILL BUILD IM-
MENSE ELEVATOR; BUS-
INESS INCREASING.

A new charter has been issued by the secretary of state to the Ada Milling company of Ada. The business is incorporated for \$150,000.

The new charter is taken out by J. Lloyd Ford of Shawnee, R. J. Anderson and F. W. Meaders of Ada. Mr. Anderson is the manager of the Ada mill. The change takes place next week.

The public will be interested to see the change in the ownership of the Ada mill for several reasons. One is that in the future it will keep the profits of the concern in Ada. Another is it will make it possible for the concern to make needed improvements in the plant, add additional employes and help the city generally.

The Ada Milling company was organized in 1901. It has been a branch of the Shawnee Milling company which company also operates mills in Stillwater, Hugo, Atoka, Peabody, Kans., Pauls Valley and Okeene. The mill in Ada ever since it was built has been a marked success. Mr. J. L. Ford of Shawnee will continue to be the controlling factor in the operation of the mill.

One great improvement to be made in the Ada mill is the addition of a 60,000 bushel grain elevator. Mr. Anderson, the manager, says this is something they have needed for a long time and the additional capital they will have under the new charter will make possible the construction of this elevator. The elevator will be built where the office of the mill now stands and work will commence on it within a few days.

The Ada mill now turns out about 400 barrels of flour daily in addition to their corn products. They manufacture the famous brands of flour known as Leader and Snow White.

No change is to be made in the management of the Ada mill under the new ownership. J. L. Ford of Shawnee will continue as president; R. J. Anderson will remain as manager. Mr. Anderson has been with the local mill during the past six months. He came here from El Reno. He is one of the best mill men in Oklahoma, having been in the business for the past ten years.

Under the management of Mr. Anderson the Ada mill has made remarkable progress. The sales during the month of January of this year were greater than ever before in the history of the mill and the months of February and March have shown still greater gains. No stock in the new concern will be offered to the public as all of the \$150,000 issue has already been subscribed. The stock is of the par value of \$100 a share, but it is valued at \$125 a share. A number of local men will be stockholders in the company under the new ownership.

TO TALK TO MARS WITH PICTURES EH?

By News' Special Service
NEW YORK, April 23.—"If ever we get into connections with Mars the only real way we can ever make them understand us is through the use of pictures."

This is the theory of T. Kimwood Peters, visual education expert. Peters arrives at this theory as the result of experiences he has had in China.

"Visual education will bring among the natives of China, or India, as I have proved," says he, "why not use the same system for the inhabitants of other planets?"

"Only recently an eminent astronomer put forth a plan for reaching some of the celestial neighbors by means of a projectile, and one or more daring aviators volunteered for the trip. This has of course its fantastic aspects and savors too greatly of the literature of Jules Verne and H. C. Wells."

"It is admitted possible to dispatch a projectile beyond the forces of gravitation according to some scientist, and it is only a matter of mathematical calculation to assure that such a projectile will eventually reach its objective point on one of the planets. Instead of risking human life, however, I believe the projectile should be freighted with pictures which would undoubtedly be comprehended by dwellers on other planets, and even furnish a suggestion as to the means of replying and thus establish communication."

STOCKYARDS GLUTTED BUT MARKET IS HIGH

By News' Special Service

CHICAGO, April 21.—Chicago retail butchers boosted the prices of the choice cuts of meat today, although the price of beef dropped at the stockyards. The stockyards are glutted with prime cattle and the prices are dropping so fast they can't be fixed. There are 9,000 head in the stockyards pens and nobody wants to buy them. The price has gone down nearly \$3 a hundredweight during the last ten days. The retail markets in Chicago report a rising price for prime beef, which is difficult to obtain. Porterhouse steak is selling at 60c, sirloin goes for 50c and the butcher will part with a little rib roast for 40c a pound if properly approached. But the worst is that the retailers see no letup and expect the price to rise still higher.

At the stockyards conditions are remarkable. A three-day run of 52,000 steers has frightened almost all buyers off the market and more cattle are coming in all the time. Steers which sold at \$15.50 were sold at between \$12 and \$13 today and their owners considered themselves lucky to find any buyers. Some packing house officials said the reason for the low prices will be that little live stock could be shipped east on account of the railroad strike. Others discarded this theory, but could offer no substitute.

The sugar situation in Chicago is very bad, the average retail price of sugar today ranges from 28c to 30c, and the market is bare. Many wholesale houses have been cleaned out and in certain sections of the city none can be bought by the housewives.

NO RAISE TO REGULAR NEWS SUBSCRIBERS YET
There seems to have been a misinterpretation of our announcement in Saturday's issue of The News as to the raise in the price of papers selling on the streets. Some of our patrons are of the impression that we announced a raise to every one. The announced raise referred only to street sales, raising the price from 3 cents a copy to 5 cents a copy, and it did not affect those taking the paper by the week, month or year. We do not know how soon we shall have to advance the subscription price, if the cost of labor and material gets any higher, but we have not yet announced the raise and the raise is not in effect.

CAMPUS IMPROVEMENTS AT STATE COLLEGE

As one of the results of a recent visit of Governor Robertson and Hon. J. A. Whitehurst, President of the Board of Regents, to Oklahoma A. and M. College, that institution will gain some valuable and much-needed improvements. After the Governor's visit to the state school, a committee composed of President Cantwell, Mayor Jones and other citizens of Stillwater, appeared before him to make representations as to the immediate needs of the College for funds for the improvement of the campus, and for purchasing equipment for the new Science hall.

After learning the facts, as set out by the committee, the Governor gave his assurance that the funds needed for these two purposes would immediately be made available. This assurance not only means that adequate equipment will be provided for Science hall, but it also means that the paving through and around the College campus will be commenced at once, and that it will be completed in time for the

Farm Congress and Farm Power Show next August.

Incidentally, it may be stated that the educational interests of Oklahoma never had a truer friend than its present chief executive.

SURGEONS agree that in cases of cuts, Burns, Bruises and Wounds the **FIRST TREATMENT** is most important. When an **EFFICIENT** antiseptic is applied promptly, there is no danger of infection and the wound begins to heal at once. "FORBIDDEN" IS THE BIG SHOW AT LIBERTY

To watch a performance of "Forbidden," the latest Jewel production from the Universal studios, in which Mrs. Charlie Chaplin, Mildred Harris, will be seen as the star, is to get an insight of the gay life of New York, its dances and cabaret parties, together with intimate glimpses into the mysteries of Chinatown.

"Forbidden" was written by E. V. Durling, put into scenario by Lois Weber and directed and produced by Miss Weber and her husband, Phillips Smalley. Miss Harris is seen in her first production since that memorable photodrama, "Home."

Briefly, the story is about a girl who is engaged to a bucolic swain and is satisfied with him until a wealthy young man comes to visit near her home. They fall in love, are married, and as a wedding pres-

ent her husband gives her a handsome country estate. No greater disappointment ever came to a girl who had hoped to live in the city. She gave her husband no rest until he took her to New York in an attempt to sicken her of the life. Her appetite for forbidden things was only whetted the more keenly, until at length her longing for adventure led her into the mysteries of Chinatown and almost results in a calamity. "Forbidden" will show at the Liberty Theatre today.

PHILLIES, PIRATES AND BROWNS ARE INTERESTING CLUBS, NOT CONTENDERS

Jimmy Austin, Brown vet, is scooping one up; George Gibson, new Pirate boss, is warming up his hurlers and, below, Gavy Cravath is looking his crew over.

By Norman E. Brown.

The Phillies.
The Pirates.
The Browns.
What of them this year?
Well, the future's brighter than usual for two of them—the Pittsburgh and Quaker City teams—and a shift on the Browns may furnish considerable interest. But none of these clubs has a chance at the world's series money unless the baseball world turns topsy-turvy.

George Gibson, veteran catcher

who made a name for himself as a minor league pilot in Toronto, is trying his hand with the sunken Pirates and reports from the training camp indicate he has already done good work in readjusting the club to strengthen it. He has broken Charley Grimm of the Little Rock club into the first base job. He has moved Whitted from the outfield to third, and with Cutshaw at second and Walter Barabare or Zeb Terry at short, has a smooth-working infield. The shift of Whitted, if permanent, will not weaken the out-

field, Southworth, Carey and Bigbee giving him a good trio.
He has acquired no new pitching material. He'll depend on Cooper, Adams, Hamilton and Carlson.

Phillies are Strengthened.

Cactus Cravath, who took up the reins over the Phils last year when President Baker canned Jack Coombs in preference to spending a nickel for players, is off on his first complete season. He has strengthened the club and can be counted on to keep it a battling outfit. First of all he has signed Jesse Tannehill to coach his pitchers. Jesse can do that. Cecil Causey, a youngster acquired from the Braves at the waiver price, looked good last year. He was waived because he couldn't agree with Stallings on salary. He may become a regular and a real star for Gavy. Mack Wheat and Tragesor are a good pair behind the plate.

Luders Has the Call.

Gene Paulette, ex-Card, is contesting with the old reliable Luders for the first base job, but Luders has the call because of his hitting. Paulette can play any position on the diamond capably, so he will be a good second defense man. Dots Miller at second, Bancroft at short and Russell Wrightstone or Ralph Miller at third, will complete the infield to start with. Wrightstone played with the famous Klein team. Miller comes from Port Wayne. Meusel, Stengel and Williams gives Gavy a good outfield. Lack of grand opera temperament on his team will help Cravath.

As for the Browns, scribes are saying that the season will mark the passing of Jimmy Austin, peppery third sacker, as a regular. They say Jim's race is about run and that it's high time Manager Burke prepped a successor. Burke doesn't discuss the matter, but says he will carry Mulen, Schepner and Thompson, three new boys, all season to give them a chance to learn the big league style of playing the hot corner. Wish I had the dope on the trio to shoot to you.

The Browns have graduated from the joke class, as everyone knows. A glance at the batting averages last season shows the team a slugging one. Sisler batted .352, Tobin .327, Jacobson .323, Kin Williams .300.

Thirty-third degree fans will watch these clubs this year for signs of improvement and to keep track of the changes in their lineups, but no one looks for them to surprise the league leaders.

Maxwell News

A very heavy hail storm swept over this part of the county Sunday evening.

The farmers have a very pleasant smile on their face now since the little rain. The truck patches have been very slow in showing up anything in the way of "food stuffs".

The Norman children that are going to school in Ada spent the week end at home this past week.

Mrs. C. F. Johnson of Konawa and Mrs. T. E. Cornichael were visitors of Mrs. G. C. Bond Sunday afternoon. Mrs. Olive Summers and Miss Effie Isaacs were also visitors of Mrs. G. C.

Mrs. May and Mrs. Bailey went a fishing on South Canadian today. We hope they shall have the luck of catching fish as large as the "whale that swallowed Jonah."

Misses Esther, Ruth and Georgia Coker were Maxwell visitors Sunday. Mr. G. C. and L. L. Bond made a business trip to Ada yesterday (Mon). Also Mr. E. W. Cotton and T. B. Bond.

School is progressing nicely only

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute.

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.

Most headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lumpy" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. 10c and 25c a box. All druggists.

AMERICANISM TO BE TAUGHT

SUMMER SESSION AT STATE UNIVERSITY WILL ATTEMPT TO INCULCATE AMERICAN PRINCIPLES.

By News' Special Service

NORMAN, April 22.—"Americanization" principles will be featured during the 1920 summer session at the University of Oklahoma, Dr. W. W. Phelan, director, announces. The tenth annual state university summer session will last eight weeks, starting June 7 and closing August 3. Sixty-six faculty members already have been secured by Dr. Phelan for the 1920 session and at least 2,000 students are expected. Prominent educators from all over the United States have been booked for the lecture courses that are among the important features of the state university summer session.

The University of Oklahoma was the first state university to start the Americanization courses—this work being offered Oklahoma educators for the first time during the 1919 session. Other universities are offering these courses this summer but Oklahoma took the lead last year according to reports received here from the federal department at Washington.

The idea in presenting this work is to prepare Oklahoma teachers for the work that they will encounter in their individual communities next fall when they return to their various schools. The federal government has expressed itself as being especially anxious to have the teachers of America prepared to instruct their students in civics and English, not only in class-room work but also during their school life.

One hundred and seventy-five stu-

dents were enrolled in the first summer session at the University of Oklahoma in 1910. In 1911 Dr. Phelan was placed in charge of the session and the enrollment gained one hundred per cent—350 students being enrolled. During the 1919 session more than 1,600 were on the state university campus for eight weeks and the university authorities are planning on at least 2,000 here this summer.

It is because of the expectations of an unusually large enrollment that so large a faculty is being secured. Many county and city superintendents, high school and ward school principals and teachers from all over Oklahoma have already written to the university for information concerning the 1920 summer session. Bulletins covering the work to be offered this year are now being printed and will be ready for distribution immediately, Dean Phelan states.

Many Oklahoma educators are taking advantage of these eight week courses to complete their work for their master's degree. A considerable part of the work being offered for the coming session will be arranged especially for graduate students.

Particular attention is being centered this summer on the special lectures. Among the men already contracted for are Dr. A. E. Winship, Boston; Dr. S. B. Portus, former University of Melbourne, Australia, faculty member; Dr. J. E. Phillips, University of Denver, Supt. H. B. Wilson of the Berkeley pub-

FOR QUICK RELIEF FROM CHILLS, AGUE, MALARIA, ETC.

YOUR DEALER WILL ALWAYS RECOMMEND SWAMP CHILL AND FEVER TONIC.

One dealer says, "I handle all the standard chill tonics on the market, but sell ten bottles of Swamp Chill and Fever Tonic to one of any other kind. After a customer has once used it he or she will use no other kind."

Numerous other dealers find it the same. And thousands of sufferers from malaria and similar ailments swear by this famous old remedy. They keep it in the house all the time.

Swamp Chill Tonic brings safe, certain and permanent relief. It generally breaks up malaria chills in three days. It contains no calomel, and is pleasant to take. No purgative has to be taken with it, as the tonic itself acts gently and agreeably upon the liver and bowels—a big advantage over other chill tonics.

Swamp Chill Tonic is prescribed by numerous leading physicians. They know that its ingredients form the best remedy there is for malaria and ague. And it's just as good for colds and grippe, too.

Price 60 cents at all dealers. Get a bottle today.—Adv.

WHEN FRIENDS ARE DANGEROUS

Once upon a time we watched a bunch of small boys eagerly sicking a fice onto a sleeping bull dog. The boys were fond of the fice and hated the bull dog. They saw the fice was looking for trouble, they knew the bull dog had imposed on the fice numerous times, and they dearly loved a scrap. The more the boys sicked the louder the fice barked and the louder the fice barked the more enthusiastically the boys yelled. But finally the bull dog woke up. He woke up all over. Then it took all the available men in the village to save the fice from annihilation. The boys had used exceedingly bad judgment.

Somehow the incident of the fice and bull dog comes to mind every time we think of this Irish and British question. Ireland has been barking furiously for many moons. Great Britain is sleeping nonchalantly with one eye open. A lot of small-boy-kind of Americans are eagerly sicking Ireland on. The American senate is endorsing the principle of Irish freedom. A resolution recognizing the Irish republic is introduced in the house. Zealous Americans are organizing clubs of the Friends of Irish Freedom. Cities are painting themselves green in honor of visits from the so-called president of the so-called Irish republic. All of these are acting the part of the small boys who sicked the fice onto the bull dog.

Such tactics may be of the best intention and those who engage in such tactics may be the warmest friends Ireland ever knew. At the same time they are doing a mighty dangerous thing for Ireland. If they really care for the people of Ireland, they had better stop and think seriously of what they are about to do. It would take mighty little to precipitate a revolution in Ireland, and such a revolution would inevitably convert that fairest isle of the ocean into a charnel house.

The total population of Ireland is in round numbers, 4,400,000. At least twenty five per cent of these are bitterly opposed to the Irish Republic. That would leave fewer than 3,500,000 people to meet in battle an empire on whose acres the sun never sets. Scotland alone has a larger population than Ireland and Scotland is only a small corner of Britain. Canada is only one of the British provinces and Canada has twice the population of Ireland. Any man not unbalanced by excessive friendship or excessive hatred knows that Ireland would be as helpless against the mighty powers of Great Britain as Belgium was against the armies of the Hun.

Belgium triumphed finally with outside assistance, and some of the ultra advocates of the Irish cause are seeking to enlist the United States in war with Great Britain. Cohalan told the house committee on foreign relations that he would like to see the United States go to war with Britain if that was necessary to free Ireland. Bourke Cochran told the same committee that the adoption of the league of nations would prevent a war for the liberation of Ireland and that he opposed the league for that reason. While the number anxious for such a war is small it is active and influential.

The only calamity greater than that awaiting Ireland if she attacks Great Britain single handed, is that awaiting civilization in the event of war between the two great Anglo-Saxon nations of the world. Such a war under present conditions would probably bring civilization itself to its doom. Such a catastrophe is unthinkable, yet it is courted by some and made possible by the thoughtless many. Real friends of America will not imperil their nation, their race, and their civilization by urging a national fice to attack a national bull dog. Real friends of Ireland will not encourage a rebellion that will convert that unhappy island into the wailing place of modern times. They should think before it is everlastingly too late.

Home rule will come to Ireland and independence will come eventually. Both will come as the Irish people manifest unmistakable ability to govern themselves and will come as respect for Ireland increases among the people of the British Empire. But the tactics of many Americans will never benefit the Irish cause and are liable to bring unspeakable calamities on that long suffering people.

That trip to the Orient at government expense of 100 congressmen will be a most enjoyable affair for the congressmen. A government vessel will convey them to the Sunset and their meals will be provided at only \$1.25 a day, the loss to the vessels larder being made up by the public treasury. It will be the last opportunity these congressmen will have to cross the Pacific en masse, as many of their number will be sent home after the next election. The gray wastes of old ocean will be far more soothing to the gay travelers than a heated summer among a people they have wronged by all the sins known to omission.

The State Press

Shawnee News: Ada made a mighty good showing in the census report and is entitled to feel proud of it.

Muskogee Phoenix: People used to think that the dwellers in the fastnesses of the Blue Ridge were peculiar in their predilection for moonshining. They were simply ahead of their times.

Ardmoreite: Unless there is an early material drop in female wearing apparel, the June bride this year is going to be an unknown quantity, even with leap year advantages wide open.

Ardmoreite: Wonder if Kansas, now that it has had a genuine "nigger lynching" doesn't feel something like a good, old deacon getting over the effects of a seance with hard cider? a little bit sore, but satisfied.

Oklahoma City Times: Mabel Hong is seeking a divorce from her Chinese husband, and such things being simple, is apt to get it. At the same time, a number of o. f. people still cling to the belief that a white woman who weds a Chinese deserves the penalty.

Oklahoma City Times: There is disappointment that the Turks are to be permitted to retain a foothold in Europe with Constantinople as the capital. But it is a weakened Turkey that remains. Control of the Dardanelles is gone, along with most of her European territory, and her sovereignty over Christian peoples, while not entirely ended, is notably reduced, and the authority still retained is subject to many restraints.

Shawnee News: Our little friend, Morris Sheppard, Texas senator, seems to be bringing out some very complimentary things about Joe Bailey's service in congress. But why stir up a stench of this sort, anyway, for the Bailey men will be Bailey men regardless, and the blacker he is really painted the tighter they will stick to him.

Muskogee Phoenix: Excited people who gather about city shops and talk parlor Bolshevism should not entertain the delusion that they constitute or even represent the United States. Ninety-nine out of a hundred Americans now regard Bolshevism as a bad joke and they object to having any joke—particularly a bad one—carried too far.

Innocent Bystander Hit.

Yesterday we ran a very caustic editorial commenting on the fact that a New Year's card had reached us thru Burleson's mail route in less than four months. It now develops that the mailing out clerk at the First National Bank had got a little bit previous and mailed out a New Year missive eight months ahead of time instead of about four months after time. Elaborate explanations soon re-established the status quo ante between the Evening News and the First National, but in the meantime J. W. Westbrook, P. M. of the city of Ada (P. M. meaning post master) had become the goat of the joke. Some few hundred local celebrities who have not received a letter since the year One forthwith called up the P. M. and made insistent inquiry why they had not received letters galore. They felt grieved that their letters should lie in the post office four months and felt angry when they learned that no letters had lain there at all. The P. M. finally convinced them that the whole story is conceived in fun and born in error, but in the meantime much patience and one telephone was exhausted.

Just received, car load of noted cow feed, alfalfa and molasses horse and mule feed. Special prices paid by express—paid express no Co., S. Broadway, rear of Rollow Building. 4-23-2td

It has been said that Samuel Butler's book, "The Way of All Flesh," took 12 years to write.

Superior Bread is full of healthy, strength-building ingredients essential to the development of growing children. Try a loaf or two and be convinced.—Knott's Bakery, 118 W. 12th St. 4-23-2td

Triangular postage stamps have been issued by the new People's Republic of the Ukraine in Europe, symbolical of the ascendancy of Christianity over Mohammedanism.

Remember Your Grandmother's Copper Kettle?

How she prized it? And how she used it for years and years? And brought it out only on special occasions?

What would she have thought of a copper washtub? Probably that it was too good to be true. But it isn't!

Blue Bird ELECTRIC CLOTHES WASHER

has a 2 1/2 foot copper tub—gleaming outside, perfectly smooth inside, that oscillates and washes clothes absolutely clean, and quicker than you would have thought possible.

BlueBird has only one kind of tub—copper. And copper was chosen because it wears long, retains heat, never rusts or acts chemically on the clothes and is as easy to clean as a china plate. Because it is the best!

Every feature of BlueBird is just as wonderful as the tub. See it today. Call at the store, or phone and arrange for

A Free Demonstration in your home.

C. V. Dunn, minister of the Christian Church returned this morning from a trip to Madill, where he went Wednesday night to meet with the district board of district five of Oklahoma. This district is likely to have an evangelist soon.

Tonight the last lecture of the series by Rev. C. L. Brooks on "Fundamentals of the Bible" will be delivered. The subject of the lecture tonight is "The Resurrection." Last night Rev. Brooks spoke on "The Covenant of Blood." The school has been of much benefit. It closes tomorrow morning.

All is in readiness for the International debate to be held at East Central auditorium tonight. The visiting team will be from Alva. The local men will have the negative side of the question. Resolved: That the United States Should Adopt the Plan of Compulsory Arbitration in Industrial Disputes. Will Riddle and Robert Wimblish will represent East Central.

RICHARDSON HOME DESTROYED BY FIRE

The home of W. S. Richardson, 1½ mile southwest of Ada, was destroyed by fire yesterday afternoon about 3:30 o'clock. Both the house and contents were completely burned. They were partly covered by insurance.

The house caught fire from the smoke-house where meat was being smoked. The smoke-house burned first and from this the flames were carried to the residence. As the building was out of reach of the fire department no assistance could be given by the fire boys.

The Richardson house was a six-room structure valued at \$4,000. It was owned by T. O. Cullins and was one of the nicest homes in that section of the city.

ODD FELLOWS COME FOR MEETING MONDAY

The greatest time in the history of Odd Fellowship in this county is expected Monday when the annual encampment and Wildy Anniversary celebration is to be held. A class of about 60 delegates will be initiated at the Odd Fellows hall Monday night and Tuesday the celebration at the city hall will be open to everybody.

Following is the program to be given:

General Program.
Class Initiation of the Encampment on Night of April 26th
Tuesday Morning.

ADMIRAL BRITTAIN COMMITS SUICIDE

By the Associated Press
WASHINGTON, April 23.—Rear Admiral Carlo B. Brittain, chief of staff for Admiral Henry B. Wilson, Commander of the Atlantic fleet, committed suicide by shooting yesterday while on duty with the fleet in Cuban waters.

Admiral Wilson in advising the navy department of Admiral Brittain's death gave no reason for the act. The body will be brought to the United States on the hospital ship Solace. Admiral Brittain's home was at Richmond, Ky.

CONTRACTOR PLEASED WITH PROGRESS MADE

J. S. Terry of Poteau, contractor for the laying of the new water mains for Ada, was in the city today looking over the work. He spoke as follows to a reporter for the News:

"I am more than pleased with the progress we are making. We have been on the job only 10 days but in that time have lowered the mains through about 25 blocks in the city and are getting along much faster than we had hoped. We have only about 18 blocks yet to lower and then we will take up the new line to Byrd's Mill.

"I have traveled over the greater part of the United States and have done work for many cities, and have never seen a more progressive city and wide-awake citizenship than you have in Ada. I have worked with Major Benham before and know that he is constructive in all his public undertakings. I am glad to work with him again in Ada.

Mr. Whitaker, supervisor of the water works system and all who are connected with it in any way are good, clean men and their work is certainly placing Ada in the front rank of the progressive cities in Oklahoma. Let the good work continue."

Mr. Terry comes to Ada every few days, but this is his first visit here since his firm began their task of laying the new pipe from Byrd's Mill to Ada. Mr. Penix is in charge of the local work.

WILL FURNISH BOARD TO HUNDRED STUDENTS

Mrs. C. P. Price of 909 East Fourteenth Street, has let a contract for an addition to her home that will mean much to the pupils of East Central Normal school. Mrs. Price will add five suites of two rooms each especially designed for the students of the Normal.

Mrs. Price is also making arrangements to supply board during the coming summer term to 100 of the Normal students at the rate of \$5 per week each. She says that by feeding so many pupils she can make this rate and still earn a good profit.

The statement of Mrs. Price that she will furnish this service to the students is glad news to the college faculty as they are doing everything possible to get good accommodations for the pupils of the school at reasonable rates.

NEXT SUNDAY

You can wear your summer suit without fear of being accused of "rushing the season." However, they must be cleaned and pressed good. We do it the goodest. Why? Machinery, boy, machinery! No scrub boards, no wash tubs, no lye soap. Modernism in every department. Service all the time. The cleaning capacity of our plant in one day will more than double the combined output of all the "shops" in the county.

PRESBYTERIANS WILL CANVASS ON SUNDAY

On Sunday afternoon from 2:45 o'clock the congregation of the First Presbyterian church will begin its every member canvass for funds for the fiscal year beginning April 1. Something like twenty-five men will meet at the church promptly at two o'clock in the afternoon. From there they will go in two's and endeavor to reach every home by four-thirty. Then they will meet back at the church to prepare a full report for the congregation at the evening service. Dr. Odell will preach at 11 o'clock and be in the canvass Sunday afternoon.

The budget set for the local church is \$6,000.

Husband Changed His Name Woman Says In Suit for Divorce

That her husband changed his name and the name of his family after she had married him is the allegation of Mrs. Veatrice Taylor in a suit for divorce from Cyrus Taylor. Plaintiff alleges that she

married Taylor in January, 1914, and that soon after their marriage defendant changed his name to Jones and forced her to go by the name of Jones, without giving any reason for the change.

Plaintiff further alleges that her husband was cruel to her and to her little girl by a former marriage. That because of this cruelty she was forced to leave home and work for her own living. That defendant

owns some town lots in the town of Altus which were acquired by their joint efforts. Wherefore, the premises considered, Plaintiff asks for a divorce, alimony, custody of her baby, and reasonable alimony. R. C. Roland is attorney for plaintiff.

Ada Service & Filling Station is now open for business. Drive in and look them over, one block north M. & P. Bank. 4-22-3td.

It's Your Privilege to Know What You Sleep On

Look for
the Red
Label

Just to see a pretty ticking should not be enough to satisfy you about your Mattress. You should be very particular about the kind of filler that is put into the ticking, and be absolutely certain that it's brand new material, and not germ-laden second-hand stuff, from goodness only knows where.

If you decide that you want to KNOW what you sleep on have your dealer send you a genuine Made-in-Birmingham Perfection Mattress. When you get it home slit the ticking and see the inside. Note how spotlessly clean it is. Note how smoothly it is made. Note how the live, fine cotton felt forms millions of tiny springs which are a Perfection's source of comfort.

Sleep on a Made-in-Birmingham Perfection Mattress for 60 nights and see how the patent construction prevents lumps and sagging spots. And if you think there's a better or a cleaner Mattress on the market today, your dealer will make it easy for you to buy it by refunding your money at once.

GEORGIA FARMER DID NOT EXPECT WIFE TO GET WELL

She Had Suffered From Childhood, Health Broke Down and Nothing Seemed to Reach Her Trouble.

COULD HARDLY DO A THING FOR 5 YEARS

Now Restored to Splendid Health and Strength, Villa Rica Couple Say Tanlac Is Grandest Medicine on Earth.

"I don't think any man has more reason to be grateful to Tanlac than I have, for it has made my wife a perfectly well woman and saved me hundreds of dollars in medicines and treatment besides," recently declared Arthur G. Henslee, a well-known and prosperous farmer of Villa Rica, Ga.

"My wife had suffered with a kind of asthma and also stomach trouble ever since she was a child," he continued, "and of late years she had got very much worse. The least exposure to the weather or even washing her hands in cold water would bring on such bad coughing spells that she would be deathly sick. She finally had a complete breakdown and for five years could do very little work of any kind. She tried all kinds of medi-

cines and treatments without getting any benefit from them and I never expected to see her a well woman again.

"I had read the statements in the papers about Tanlac and was convinced it would do her good so I got her a bottle. When she saw what I had brought her she exclaimed: 'What! another bottle of medicine. You're always making me take something or other and they never do me a bit of good.' However, she took it and when she had finished the first bottle she asked me to get her another.

"Well, sir, before she had finished the second bottle she was well and strong enough to do the family washing as well as the housework, and before she got through with the third she felt so well and energetic that she quit taking any more. That was four years ago, and she hasn't needed doctors or medicine from that day to this, until she had the 'flu' recently. Her asthma left her entirely and she hasn't been troubled with it since; she goes out in all weathers but never has those coughing spells now. She eats well and digests her food without difficulty, has gained considerably in weight and has been like a different woman ever since. After she had the 'flu' a short while ago she felt pretty weak, so she took Tanlac again and it very soon built her up so that she is now as well as ever. It's no wonder that we both think Tanlac is the grandest medicine on earth."

Tanlac is sold in Ada by Gwin & Mays Drug Co., in Stonewall by L. P. Carpenter, in Francis by Francis Drug Co., and in Roff by Dowdy's Pharmacy. adv

finding plenty of grass, water and wild game they secured leases from the Indian settlers which was not hard to do at that time as there were no individual titles to land in the Indian Territory. They continued to drift here until there was quite a settlement by the spring of 1890 and being dissatisfied with the inconvenience of having no postoffice they got up a petition and sent in to the Postoffice Department asking for a postoffice the name of which was to be Roffville with J. T. Roff as postmaster. The postoffice department granted the postoffice but eliminated the "ville" and called it Roff.

Settlers continued to drift this way until Roff became quite a village with several stores, a cotton gin, 2500 bales of cotton being ginned the second season.

In 1900 the Frisco began running preliminary surveys for rail road but missed Roff in their first survey but the citizens, anxious to see the road built through Roff put up a good sum of money to get the road established near Roff. They layed of the new townsite considerably to the south of the Old Town where the land was more level.

Of course everybody was anxious to boost the town and as every well regulated town has a newspaper, they set about to have a newspaper established here. So a few citizens of Roff went in and purchased a small plant which was at that time located at Hickory, and run by T. Bland. They secured his services and he moved with the plant in August of 1900 when the first publication of the Tribune was issued after several years, however, the name of the paper was changed to the Eagle. But it has been a continuous publication since that time and has been a great factor in the upbuilding of Roff and Pontotoc county. Much new machinery has been added from time to time and it has advanced from old hand presses to the up-to-date power machinery it now possesses. The first paper published in Pontotoc county.

The first settlers and business men were not town builders. They were too conservative—afraid of competition and did not have the money.

Roff, now, after these 20 years, a nice little town of from 1500 to 2000 inhabitants, has a bright future. In fact, it is now ready to merge into the ranks of a city with the set of Wide-awake citizens she has to back her up.

Beautiful line of SPORT SKIRTS at very attractive prices now on sale at Glines-Batell Co., Harris Hotel Building. 4-22-4td

WILLIAM RUSSELL IN A MOST VITAL DRAMA

If you want to see a gripping, dramatic picture, with human problems set forth with a story-teller's art that holds you rigid with suspense and works up your emotions to the point where you begin to go through the "What-would-I-have-done" catechism, betake yourself to the American Theatre and view "The Valley of Tomorrow," the latest release of the American Film Company, starring William Russell.

Herein the athletic favorite, with Mary Thurman and a whole cast of all-star caliber, puts upon the screen the tragic hesitations and soul conflicts that harass a man when love clashes with his hereditary duty to kill his sister's betrayer—a man who proves to be not only the brother of the woman he loves, but the very man to whom he owes his own escape from death.

This is the backbone of the story. There are other complications that arise to make the star's problem still more intricate, until you wonder how any dramatist can possibly get his hero out of his dilemma with honor and love intact. But untangle the situation he does (the author, by the way, is Stephen Fox), and in a way that sacrifices no single iota of dramatic sincerity. Toward the close of the picture there are a few scenes verging on the melodramatic, where the wounded brother, bleeding to death, writes upon the wall in his own blood the name of the man who loosened his bandages. Throughout the story bristles with exciting incidents and dramatic punch.

Today is the last day to see "The Valley of Tomorrow." Don't miss it.

Bad breath, bitter taste, dizziness and a general "no account" feeling is a sure sign of a torpid liver. HERBINE is the medicine needed. It makes the liver active, vitalizes the blood, regulates the bowels and restores a fine feeling of energy and cheerfulness. Sold by Bart Smith. (Adv)

The News Bible Lesson

Luke 18:19-27.

And Jesus said unto him, Why callest thou me good? none is good save one, that is, God.

Thou knowest the commandments. Do not commit adultery. Do not kill. Do not steal. Do not bear false witness. Honour thy father and thy mother.

And he said, All these things have I kept from my youth up. And when Jesus heard these things, he said unto him, Yet lackest thou one thing: sell all that thou hast, and distribute unto the poor, and thou shalt have treasure in heaven: and come, follow me.

And when he heard this he was very sorrowful: for he was very rich.

And when Jesus saw that he was

FRECKLES

March Brings Out Unsightly Spots. How to Remove Easily.

The woman with tender skin dreads March because it is likely to cover her face with ugly freckles. No matter how thick her veil, the sun and winds have a strong tendency to make her freckle.

Fortunately for her peace of mind Othine—double strength, makes it possible for even those most susceptible to freckles to keep their skin clear and white. No matter how stubborn a case of freckles you have, the double strength of Othine should remove them.

Get an ounce from your druggist and banish the freckles. Money back if it fails. adv

Altus Times-Democrat Conducts Straw Vote In Gore-Ferris Race

The Altus Times-Democrat has completed a straw vote on the contest for the Democratic Senatorial nomination between Representative Scott Ferris and T. P. (Von) Gore, in which Ferris polled 61 percent of the vote.

"The vote was light," the Times-Democrat states, "but came from every point in the county."

The smallest vote was from the city of Altus where Ferris' strength is the greatest. Following is the results of the poll:

Scott Ferris—202
T. P. (Von) Gore—131

The fact that Socialists and Republicans can vote in straw balloting probably accounts for the fact that Gore received as many votes as he did. Judged by his Un-American record the total vote cast for him by loyal Democrats was probably "Zero."

Ada Playhouses

American

William Russel is shown in "The Valley of Tomorrow." Last showing today. This story of remarkable intrigue will hold you spellbound from the time it starts. If the woman you loved threatened your life — If a man you knew to be your personal enemy knocked at your heart would you let him in — these and other questions are put up to you for an answer. Don't miss this play.

Liberty

The Aviation Girls, singers, dancers, comedians, are seen in another entire change of program. In the pictures Mrs. Charlie Chaplin is shown in "Forbidden." This is a picture you will remember for years. Coming Monday and Tuesday, Anita Stewart in "Virtuous Wives."

HOW TO KEEP THE BOYS AND GIRLS ON THE OLD FARM

By the Associated Press

INDEPENDENCE, Kan., April 23. — That a war-time shortage of farm workers still exists, because only a small per cent of the men and boys who left the farm for the military forces or city industries during the war have returned to the farm, was the assertion of Lyman L. Humphrey, a farm mortgage dealer, in an address before the local Rotary club. He discussed the subject of how to keep the boys and girls on the farm. "No remedy has yet been found," he said, "for the rural population continues to decrease."

"The only logical remedy that can be suggested to keep the boys and girls on the farm is to make farm life more attractive to them; give them better educational facilities, especially along the agricultural lines, and offer them the same inducement in compensation for their labor as offered in the towns and cities. The cost of living is less, proportionately, than in the city, but the returns from farming, figured over a term of years, must be in keeping with the net returns with other lines of business, for farming is, in fact, a business that is of the greatest importance to the stability and welfare of our country."

Ultimately, Mr. Humphrey said, the present abnormal demand on industry brought about by the war, will subside and there will be more or less of a movement back to the farm, but, he added, "whether this will relieve the situation is a question to be determined." He continued:

"Forty years ago, statistics show that 70 per cent of our population was on the farms; ten years ago, 53 per cent, whereas the advance reports on the 1920 census show there are less people on the farms than in the cities and towns. Just what the percentage is has not yet been determined, but some predict as low as 35 per cent."

New arrival of Sweaters, Slipons, Shawls and Scarfs in new spring colors, at popular prices. Glines-Battell Co. Harris Hotel Bldg. 4-22-4td.

Permanent Highways The Program of the Nation for the Year

The year 1920 promises to develop a revolution in America's two great problems—highways and transportation.

All over the country great interest is being manifested in better roads and improved transportation facilities.

The coming of the pneumatic tired motor truck has given an impetus to the movement for a national highway system that is sweeping everything before it.

State after state has passed, without noticeable opposition, appropriations for millions of dollars to build and improve main market and inter county highways.

What these activities portend, can be visualized in some measure when it is said that of the 2,000,000 miles of roads in this country only 200,000 miles are improved.

Motor transports work at highest efficiency on good roads although the pneumatic truck tire is rendering conspicuous service in transporting heavy loads over swamp ground and the sandy soil of the fruit groves.

Investigations by the Goodyear Tire & Rubber Co., Akron, Ohio show that Ohio alone will spend \$33,000,000 on secondary or local roads in the next five years. Ohio now has more motor vehicles in operation than any other state in the union.

Another Oil Well To Be Drilled in Pontotoc County

Another new oil well is to be drilled in McClain and Pontotoc counties near the town of Chism. The deal was just made in Fort Worth recently, whereby the Dixie Leasing Company made a contract with the Rodeo State Petroleum Company of Fort Worth to drill a test well soon. A geologist will be sent to the field to make the location and after this is done a derrick will be erected at once and the actual drilling will be started no later than August 10, 1920.

The Rodeo State Company's feels they are very fortunate in taking over this acreage and believe they will find oil in this vicinity, however are willing to give it a thorough test.

Beautiful line of SPORT SKIRTS at very attractive prices now on sale at Glines-Battell Co., Harris Hotel Building. 4-22-4td.

There are just as good fish in the Sea.

This is a Spring message to Young Men — not a lecture.

This is the season when all young men are filled with ambition. They breathe it, eat it, talk it, and THEY SHOULD DRESS IT.

There are more opportunities today than when Carnegie was a boy and if that's hard to believe—just try stepping out to amass a million DRESSED IN KILTS.

Good clothes, good manners, a stiff upper lip and a determination to work like a trojan are the planks that pave the road to riches.

We sell the first — and you have the last.

SO LET'S GET TOGETHER.

MAIN ROADS TO GET FEDERAL AID FIRST

OKLAHOMA CITY, April 23.—Main highways instead of roads of lesser importance will receive preference in applications for federal aid in road construction, it is stated in a letter received by Henry

Wood, state commissioner of highways, from J. D. Fauntleroy of Fort Worth, Texas, supervising federal engineer for the district embracing Oklahoma.

The letter says:

"The bureau of public roads is extremely desirous of using federal aid in connection with state and county funds to the end that eventually we shall have a connected system of highways which will take in the main roads of the state."

"It is essential that these roads be properly located and graded, that
